To Whom It May Concern:

**OFFER TO PAY FOR MESOTRIONE**

Dow AgroSciences LLC is submitting a registration application to the U.S. Environmental Protection Agency ("EPA") for the product Mesotrione Technical containing mesotrione as the active ingredient. This application relies on the cite-all method of support to satisfy generic data requirements. Your company is listed on the most recent EPA Data Submitters List for this active ingredient.

In accordance with the Federal Insecticide, Fungicide and Rodenticide Act ("FIFRA") Section 3(c)(1)(F), Dow AgroSciences hereby offers to pay compensation after the approval of this application to the extent required by this Section for specific and valid data for which your company is identified by the EPA as an original data submitter and on which this application relies. Dow AgroSciences offers to begin negotiations to determine which data are subject to the compensation regulations of FIFRA and the amount and terms of the compensation, if any, to be paid for any such data.

Further, if there are any studies that are in progress and that you are required to submit to EPA in response to a pending Data Call-In for mesotrione, Dow AgroSciences hereby offers to jointly develop or share in the cost of developing such studies to the extent required by Section 3(c)(2)(B).

For each study for which EPA considers your company to be an original data submitter and for which you seek compensation, please identify the data items and the terms of compensation that you propose. If we have not received your response within 90 days, we will assume that no compensation is requested.

Sincerely,

A handwritten signature in black ink that reads "Cindy Loy". The signature is written in a cursive, flowing style.
